The Mars Foundation is inspiring the next generation of explorers through research and STEM innovation

Agriculture Study

Want to help plan how to live on the Next World? Join us in an Agriculture study, including diet, nutrition, and menu. Also greenhouse design, construction, operation and 3D printing of agricultural equipment. Led by Frank Crossman, assisted by Bruce Mackenzie. Send a very short note to Info@MarsFoundation.org

Current Projects

The Mars Foundation is working on the following projects since 2017. You can [Volunteer](#) to assist us with any of these projects.

- [Marspedia.org](#) – forming a Governing Council to galvanize and modernize this important information resource.
- Revisions to the [Hillside Settlement](#) and [Plains Settlement](#) plans and reorganization of all related presentations, both on this website and for conferences.
- [Image Gallery](#) modernization & overall image/report content inventory.

3-D Printing on Mars

The Mars Foundation donated a 3-D printer to the HI-SEAS analog research station.
