Settlement facilities

Jump to: navigation, search

Settlement facilities divide into buildings and infrastructure. If you want to create a settlement you will need some combination of these elements. Settlement systems are used in the facilities to accomplish their function. Facilities are used either for production or services.

Buildings/modules

Assembly facilities

Housing facilities, hospitality and offices

Habitat nodes

Habitat corridors

Greenhouses and agricultiural facilities

Production and maintenance facilities

Health care facilities

Research facilities

Vehicle maintenance

Infrastructure

Spaceports

Lay down and storage areas

Roads

Atmospheric processing units

Gas storage, N2,CH4,O2

Water storage tanks

Power stations

Solar cells

Cooling units

Mining areas

Mineral storage areas

Nuclear reactors with external cooling

Self contained reactors

Detailed list form

The Omniclass (http://www.omniclass.org/) system table 11 provides a listing of construction entities by function. This list covers all the possible facilities than can be required to make up a settlement, colony or outpost. The list below is simplified for Mars probable usage.

5/2-1/2021	Cottomont	iuoi
Assembly Facility	Convention hall Meetings	
	Entertainment	
Education Facility	Daycare	
	Scool	
	Higher education	
Public Services Facility	Governement	
	Administration	
	Courthouse	
	Legislative house	
	Public health and safety	
	Police station	
	Detention center	
	Military	
	Public welfare	
Cultural Facility	Monuments	
	Religious institutions	
	Museums	
Recreation Facility	team sports	
	Athletic facilities	
Housing Facility	Residences	
	Dormitories	
	Spacial care	
	Senior housing	
Retail Facility	Showrooms	
	Stores	
	Markets	
	Mixed use	
Health Care Facility	Hospitals	
	Mobile health units	
	Residential health care	

1/24/2021	Settlement la
	Death facility
Hospitality Facility	Dining
	Tavern/club
Lodging Facility	Hotel
Office Facility	Headquarters
	Multi tenant offices
	Flex space
	Logistics
Research Facility	Physical
	Engineering
	Life sciences
	Social research
	R and D
	Testing facilities
Production Facility	Manufacturing
	Agricultural
	Mineral extraction
	Craft production
	Entertainment production
	Dry storage
Storage Facility	Salvage
	Warehouse
	Cold storage
	Gas plant and storage
	Bulk fluids
	Cargo
	Customs facility
Water Infrastructure Facility	Water storage
	Water distribution
	Water treatment
	Fire protection water
Energy Infrastructure Facility	Nuclear power electrical plant

5/24/2021	Settlement faci
	Wind power electrical plant
	Solar powered electrical plant
	Emergency/stand-by power
	Energy storage
	Energy distribution
	Heat and refrigeration facility
Waste Infrastructure Facility	Waste holding
	Waste processing
	Sewage treatment
	Industrial waste
	Data center
Information Infrastructure Facility	Telecommunication center
	Aerospace terminal-Spaceport
	Rail terminal
	Vehicle parking
	Vehicle maintenance
Transportation infrastructure facility	Roadway
	Railway
	Traffic control
	Tunnel
Land	Public land
	State land
	Private land
	Wilderness
	Industrial site
